Dear Harold:

At last, you came to town to do the radio "conversation circuit," as sometime ago I had intended to write to ask about when you might, as I thought you ought. And then, there you were, on the B.G (big golem) show that I caught.

Next, by sheer chance, I heard you in some of the hassle-wrestle with that miserable Mizner (another shmuck), one trained in the con-man's "art" of proving himself " right " by hook or crook, with [redacted], all the might of a sleazy mind. Who follows : Farber ? Citron ? Nebel ? WBAI ?

Applaud your fervent efforts to impose some purposefullness on — or possibly extract [redacted] out of — the absurdities in out environment.

If you are [redacted] too busy for a get-together, or a phone call, on this trip, perhaps you will not be on your next one. The best of luck to you!

With best regards, sincerely,

Leon
